Afternoon (Time: 1 hour 30 minutes)					Paper Reference 4EC1/02R			
Economics								
Level 1/2								
Paper 2: Macroeconomics and the Global Economy								
You do not need any other materials.							Total Marks	

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- Calculators may be used.
- You are advised to **show all your working out** with **your answer clearly identified** at the **end of your solution**.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

President Xi Jinping of China has made environmental protection a priority. This is due to rising public concern over widespread environmental damage caused by years of uncontrolled economic growth.

(f) Explain **one** possible negative effect on the environment caused by the economic growth of a country such as China.

(3)

A new UK report identified the urgent need to reduce pollution from vehicles and provide more open spaces and parks.

Researchers looked at the impact on health when participants walked for two hours on London’s busy Oxford Street. This was then compared to those walking in the nearby large open space of Hyde Park.

The results showed that people walking in the park performed better. The air pollution from vehicle fumes largely removed the health benefit from the exercise in Oxford Street. The report suggests that people should avoid walking in busy streets and should instead walk in parks or open spaces.

(Source: adapted from <http://edition.cnn.com/2017/12/05/health/exercise-polluted-urban-streets-intl/index.html>)

(g) With reference to the data above and your knowledge of economics, assess whether the government should provide more parks and open spaces.
