In 2022, President Biden introduced legislation to increase investment in green technology in the US. Subsidies of \$369bn are given through grants, loans and tax credits to public and private firms.

These subsidies are to be used to increase battery, solar panel and wind turbine production in the US creating new factories and millions of new green jobs in the country.

There is widespread opinion amongst EU and UK politicians and business leaders that US subsidies will have a negative impact on their economies.

(g) With reference to the data above and your knowledge of economics, assess the possible benefits for the US of giving subsidies for green technology.
