Sri Lanka Railways (SLR) has made a loss of Rs 331bn over the last 10 years. The Sri Lankan Government provides a subsidy so that ticket prices can be reduced. This is to encourage passengers to use trains rather than further increase congestion on the roads.

A spokesperson for SLR said that it needs to upgrade existing railway tracks to make services more comfortable for passengers as well as increase the number of trains to reduce overcrowding. This will require a larger subsidy.

(e) With reference to the data above and your knowledge of economics, assess the effectiveness of subsidies in dealing with externalities, such as road congestion.
