

Please check the examination details below before entering your candidate information

Candidate surname					Other names							
Pearson Edexcel					Centre Number				Candidate Number			
International GCSE (9-1)					<input type="text"/>				<input type="text"/>			
Tuesday 21 May 2019												
Afternoon (Time: 1 hour 10 minutes)						Paper Reference 4GE1/01R						
Geography												
Paper 1: Physical Geography												
You must have: Resource Booklet (enclosed), calculator										Total Marks		

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- In Section A, answer **two** questions from Questions 1, 2 **and** 3.
- In Section B, answer **one** question from Questions 4, 5 **and** 6.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- Calculators may be used.
- Where asked you must **show all your working out** with **your answer clearly identified** at the **end of your solution**.

Information

- The total mark for this paper is 70.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

Pearson

SECTION A

Answer TWO questions from this section.

Some questions must be answered with a cross in a box ☒. If you change your mind about an answer, put a line through the box ☒ and then mark your new answer with a cross ☒.

If you answer Question 1 put a cross in the box ☐ .

1 River Environments.

(a) Identify the statement below that best describes the channel shape in the upper course of a river.

(1)

<input type="checkbox"/>	A narrow river channel with shallow sides
<input type="checkbox"/>	B narrow river channel with steep sides
<input type="checkbox"/>	C wider river channel with shallow sides
<input type="checkbox"/>	D widest river channel with very shallow sides

(b) (i) Identify **one** process of river transportation.

(1)

<input type="checkbox"/>	A suspension
<input type="checkbox"/>	B abrasion
<input type="checkbox"/>	C attrition
<input type="checkbox"/>	D deposition

(ii) State **one** store in the hydrological cycle.

(1)

(iii) Explain **one** method of water transfer in the hydrological cycle.

(2)

.....

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

(c) Study Figure 1a in the Resource Booklet.

Suggest **two** ways in which water quality can be affected by people.

(4)

1

.....

.....

.....

2

.....

.....

.....

(d) Explain **one** way precipitation can affect a river regime.

(3)

.....

.....

.....

.....

.....

(e) Study Figure 1b in the Resource Booklet.

Identify the river landform at X.

(1)

.....

DO NOT WRITE IN THIS AREA

(f) Explain the formation of an oxbow lake.

(4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(g) Study Figure 1c and Figure 1d in the Resource Booklet.

Analyse the reasons why areas differ in their risk of river flooding.

(8)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

Area with horizontal dotted lines for writing.

(Total for Question 1 = 25 marks)

If you answer Question 2 put a cross in the box .

2 Coastal Environments.

(a) Identify the statement below that best describes the characteristics of a constructive wave.

(1)

<input type="checkbox"/>	A long wavelength and weak backwash
<input type="checkbox"/>	B short wavelength and strong backwash
<input type="checkbox"/>	C long wavelength and strong backwash
<input type="checkbox"/>	D short wavelength and weak backwash

(b) (i) Identify **one** depositional landform.

(1)

<input type="checkbox"/>	A headland
<input type="checkbox"/>	B spit
<input type="checkbox"/>	C cave
<input type="checkbox"/>	D stack

(ii) State **one** type of weathering that affects coastal landscapes.

(1)

(iii) Explain the process of longshore drift.

(2)

.....

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

(c) Study Figure 2a in the Resource Booklet.

Suggest **two** ways geology influences the shape of this coastline.

(4)

1

.....

.....

2

.....

.....

(d) Explain **one** physical factor that influences the distribution of coral reef ecosystems.

(3)

.....

.....

.....

.....

.....

(e) Study Figure 2b in the Resource Booklet.

Identify the coastal landform X.

(1)

.....

DO NOT WRITE IN THIS AREA

Area with horizontal dotted lines for writing.

(Total for Question 2 = 25 marks)

If you answer Question 3 put a cross in the box .

3 Hazardous Environments.

(a) Identify the statement below that best describes a destructive (convergent) plate margin. (1)

<input type="checkbox"/>	A the plates pull apart and magma rises
<input type="checkbox"/>	B the plates push together and both plates are destroyed
<input type="checkbox"/>	C the plates pull apart and volcanoes erupt
<input type="checkbox"/>	D the plates push together and one plate is destroyed

(b) (i) Identify **one** measurement of a volcanic hazard. (1)

<input type="checkbox"/>	A Volcanic Mercalli Scale
<input type="checkbox"/>	B Volcanic Saffir-Simpson Scale
<input type="checkbox"/>	C Volcanic Explosivity Index
<input type="checkbox"/>	D Volcanic Eruption Source

(ii) State **one** human factor that affects the impact of a tectonic hazard. (1)

(iii) Explain **one** physical impact of a volcanic eruption. (2)

.....

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

(c) Study Figure 3a in the Resource Booklet.

Suggest **two** factors that influence the distribution of a tropical cyclone.

(4)

1

.....

.....

.....

2

.....

.....

.....

(d) Explain **one** way a hotspot can lead to a tectonic hazard.

(3)

.....

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

(e) Study Figure 3b in the Resource Booklet.

Identify the building design characteristic in Box X that makes this building more resistant to collapse.

(1)

.....

(f) Explain why people live in areas at risk from hazardous events.

(4)

.....

.....

.....

.....

.....

.....

.....

(g) Study Figure 3c and Figure 3d in the Resource Booklet.

Analyse the use of GIS in managing earthquake risk.

(8)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

Area with horizontal dotted lines for writing.

(Total for Question 3 = 25 marks)

TOTAL FOR SECTION A = 50 MARKS

SECTION B

Geographical Enquiry

Answer ONE question from this section.

If you answer Question 4 put a cross in the box .

4 Investigating River Environments.

A group of students have undertaken a study exploring changes in a river channel.

(a) (i) Identify **one** risk that the students may identify when undertaking a risk assessment for this investigation. (1)

(ii) State **one** way that this risk could be managed. (1)

Study Figure 4a in the Resource Booklet. It shows some sample data from one site on a river. A cork float was used to measure the time taken to travel between two points.

(iii) Calculate the mean time taken for the cork float to travel from site A to site B. Give your answer to one decimal place. You must show all your workings in the space below. (2)

..... seconds

DO NOT WRITE IN THIS AREA

- (iv) Complete Figure 4b below for samples 1 and 4 using data in Figure 4a (in the Resource Booklet).

(2)

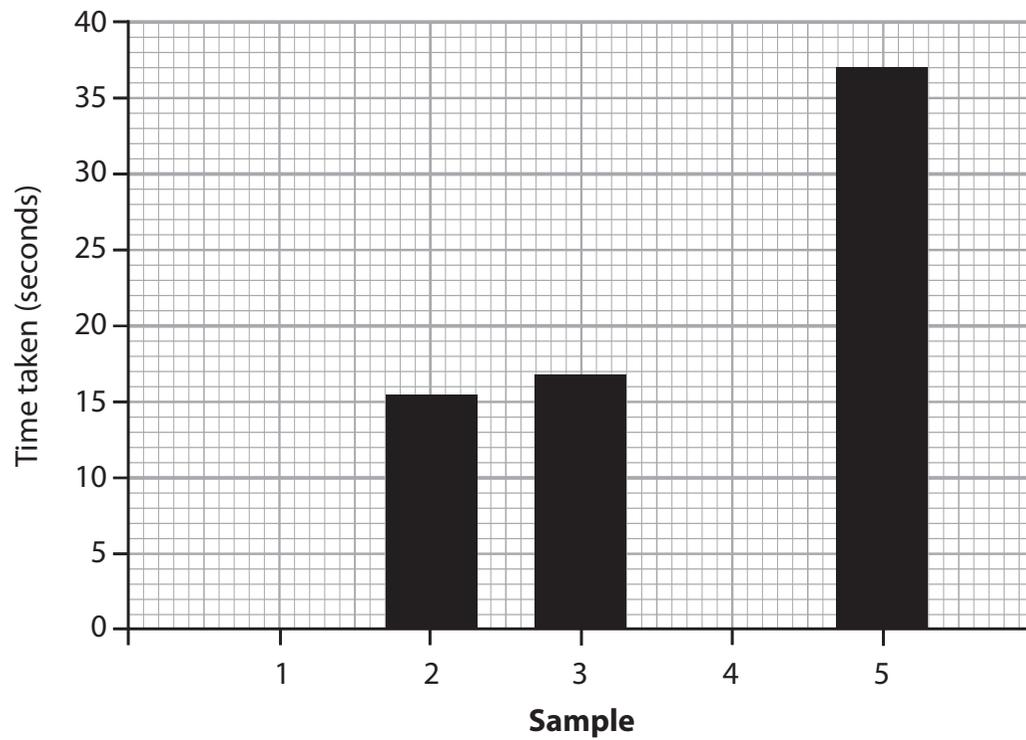

Figure 4b

Time taken for float to travel between site A and B

- (v) Sample 5 shows an anomalous result.

Suggest **one** possible explanation for this.

(2)

.....

.....

.....

.....

P 5 9 9 0 1 A 0 1 5 2 8

(b) To extend the river study, students were asked to use one additional quantitative and one qualitative technique.

Describe the **two** additional fieldwork techniques the students may have selected.

(4)

Quantitative

.....
.....
.....

Qualitative

.....
.....
.....

You have studied river processes as part of your own geographical enquiry.

(c) Evaluate the effectiveness of the data collection methods in relation to the purpose of the study.

(8)

Enquiry question

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

Area with horizontal dotted lines for writing.

(Total for Question 4 = 20 marks)

If you answer Question 5 put a cross in the box .

5 Investigating Coastal Environments.

A group of students have investigated processes and landforms along a stretch of coastline.

(a) (i) Identify **one** risk that the students may identify when undertaking a risk assessment for this investigation. (1)

.....

.....

(ii) State **one** way that this risk could be managed. (1)

.....

Study Figure 5a in the Resource Booklet. It shows some sample data about shingle size along a stretch of coastline.

(iii) Calculate the mean shingle size across the five sites.
Give your answer to one decimal place.
You must show all your workings in the space below. (2)

..... mm

DO NOT WRITE IN THIS AREA

- (iv) Complete Figure 5b below for sites 1 and 4 using data in Figure 5a (in the Resource Booklet).

(2)

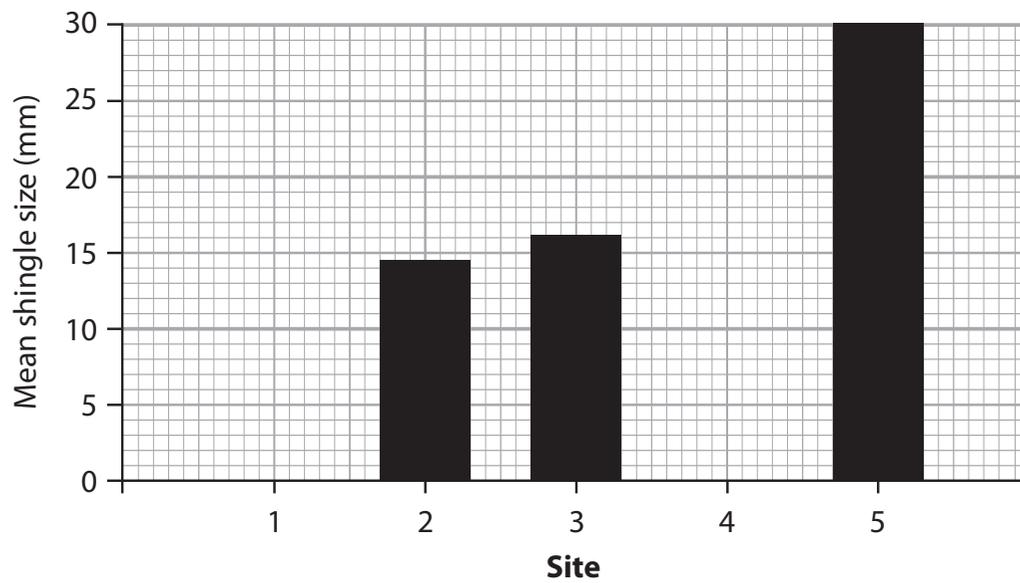

Figure 5b

Shingle size along a stretch of a coastline

- (v) Site 5 shows an anomalous result.

Suggest **one** possible explanation for this.

(2)

.....

.....

.....

.....

(b) To extend the coastal study, students were asked to use one additional quantitative and one qualitative technique.

Describe the **two** additional fieldwork techniques the students may have selected.

(4)

Quantitative

.....
.....
.....

Qualitative

.....
.....
.....

You have studied a coastal environment as part of your own geographical enquiry.

(c) Evaluate the effectiveness of the data collection methods in responding to the purpose of the study.

(8)

Enquiry question

.....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

Large area with horizontal dotted lines for writing.

(Total for Question 5 = 20 marks)

If you answer Question 6 put a cross in the box .

6 Investigating Hazardous Environments.

A group of students have investigated the physical processes involved in an extreme weather event, by recording a weather diary.

- (a) (i) Identify **one** risk that the students may identify when undertaking a risk assessment for this investigation.

(1)

.....

.....

- (ii) State **one** way that this risk could be managed.

(1)

.....

.....

Study Figure 6a in the Resource Booklet. It shows some sample data about wind speed recordings during a tropical storm.

- (iii) Calculate the mean wind speed across the five samples.

Give your answer to one decimal place.

You must show all your workings in the space below.

(2)

..... mph

DO NOT WRITE IN THIS AREA

(iv) Complete Figure 6b below for sites 1 and 4 using the data in Figure 6a (in the Resource Booklet).

(2)
