PSYCHOLOGY **9990/43**

Paper 4 Specialist Options: Application and Research Methods **October/November 2025**

1 hour 30 minutes

1508360420

You must answer on the enclosed answer booklet.

You will need: Answer booklet (enclosed)

INSTRUCTIONS

- Answer **five** questions in total:
  - Answer questions from **two** options.
    - Section A: answer **four** questions.
    - Section B: answer **one** question.
- Follow the instructions on the front cover of the answer booklet. If you need additional answer paper, ask the invigilator for a continuation booklet.

INFORMATION

- The total mark for this paper is 60.
- The number of marks for each question or part question is shown in brackets [ ].

This document has **8** pages. Any blank pages are indicated.

Section A

Answer questions from **two** options in this section.

Clinical Psychology

Answer **all** questions if you have studied this option.

1 The key study by Grant et al. (2008) treated gambling disorder in one of two double-blind placebo-controlled trials, in a university and treatment centres.

(a) **(i)** Identify the drug used in each trial. [2]

(ii) State the duration of each trial. [2]

(b) Suggest why placebo-controlled trials were used in this study. [2]

(c) Explain **one** strength and **one** weakness of using multiple locations within this study. [4]

2 **(a)** Outline **one** case study of schizophrenia. [2]

(b) Suggest why the data gathered from a person with schizophrenia might **not** be reliable. [2]

(c) Explain **two** strengths of using case studies to collect data on schizophrenia. [4]

Consumer Psychology

Answer **all** questions if you have studied this option.

3 From the key study by Becker et al. (2011) on food package design, a pre-test on packaging shape was conducted.

(a) Describe the procedure of the pre-test on packaging shape. [4]

(b) Suggest **one** effect on the results if the pre-test had **not** been conducted. [2]

(c) Explain **one** strength and **one** weakness of conducting studies on packaging shape for food in the entrance hall of a supermarket. [4]

4 **(a)** Explain what is meant by the term ‘retail atmospherics’. [2]

(b) Suggest the effect **one** retail atmospheric might have on shopper ambience. [2]

(c) Explain **two** strengths of studying retail atmospherics for the seller (retailer). [4]

Health Psychology

Answer **all** questions if you have studied this option.

5 The key study by Bridge et al. (1988) on reducing stress during medical treatment divided the female participants into two experimental groups and one control group.

(a) **(i)** Outline the procedure followed by the 'relaxation plus imagery' experimental group. [2]

(ii) Outline the experimental design that was used in this study. [2]

(b) Suggest **one** problem if a different experimental design was used in this study, other than the one you outlined in part **(a)(ii)**. [2]

(c) Explain **one** strength and **one** weakness of using a sample of female participants in studies on reducing stress. [4]

6 **(a)** Outline the methodology used in **one** study on improving adherence in children (e.g. Chaney et al. 2004). [2]

(b) Suggest **one** ethical guideline that applies to the children in the study you outlined in part **(a)**. [2]

(c) Explain **two** weaknesses of using parents/guardians to collect data about improving the adherence of children in their care. Do **not** refer to ethics in your answer. [4]

Organisational Psychology

Answer **all** questions if you have studied this option.

7 From the key study by Cuadrado et al. (2008) on women's access to managerial positions:

(a) **(i)** State **two** features of the sample of participants used in this study. [2]

(ii) Outline what each participant was asked to do after reading the narrative (the description of the supervisor's behaviour). [2]

(b) Suggest why Cuadrado et al. used four different versions of the same narrative. [2]

(c) Explain **two** strengths of using an experiment to investigate women's access to managerial positions in this study. [4]

8 Walton's quality of working life (QWL) has an evaluation scale with eight conditions, including a fair and appropriate salary.

(a) State **two** question items from the scale that relate to a fair and appropriate salary. [2]

(b) Suggest how the reliability of the QWL evaluation scale could be tested. [2]

(c) Explain **two** weaknesses of the question items from the QWL evaluation scale. [4]

Section B

Answer **one** question from this section.

Clinical Psychology

9 **(a)** Plan a study using a structured observation to investigate the effectiveness of imaginal desensitisation for treating gambling disorder.

Your plan must include details about:
- naturalistic or controlled observation
- type(s) of data. [10]

(b) For **one** piece of psychological knowledge on which your plan is based:

(i) Describe this psychological knowledge. [4]

(ii) Explain how you used **two** features of this psychological knowledge to plan your study. [4]

(c) **(i)** Explain **one** reason for your choice of naturalistic observation or controlled observation. [2]

(ii) Explain **one** strength of using a structured observation in your study. [2]

(iii) Explain **one** reason for your choice of type(s) of data. [2]

Consumer Psychology

10 **(a)** Plan a field experiment to investigate the effect on spending when playing classical music in different types of restaurant.

Your plan must include details about:
- controls
- a directional or non-directional hypothesis. [10]

(b) For **one** piece of psychological knowledge on which your plan is based:

(i) Describe this psychological knowledge. [4]

(ii) Explain how you used **two** features of this psychological knowledge to plan your experiment. [4]

(c) **(i)** Explain **one** reason for your choice of controls. [2]

(ii) Explain **one** weakness of your choice of controls. [2]

(iii) Explain **one** reason for your choice of directional or non-directional hypothesis. [2]

Health Psychology

11 **(a)** Plan an experiment to investigate the effectiveness of biofeedback to manage stress in university students.

Your plan must include details about:
- experimental design
- dependent variable. [10]

(b) For **one** piece of psychological knowledge on which your plan is based:

(i) Describe this psychological knowledge. [4]

(ii) Explain how you used **two** features of this psychological knowledge to plan your experiment. [4]

(c) **(i)** Explain **one** reason for your choice of experimental design. [2]

(ii) Explain **one** weakness of your choice of experimental design. [2]

(iii) Explain **one** reason for your choice of dependent variable. [2]

Organisational Psychology

12 **(a)** Plan a study using a questionnaire to investigate levels of job satisfaction following a job enlargement.

Your plan must include details about:
- questionnaire technique
- question format. [10]

(b) For **one** piece of psychological knowledge on which your plan is based:

(i) Describe this psychological knowledge. [4]

(ii) Explain how you used **two** features of this psychological knowledge to plan your study. [4]

(c) **(i)** Explain **one** reason for your choice of questionnaire technique. [2]

(ii) Explain **one** weakness of your choice of questionnaire technique. [2]

(iii) Explain **one** reason for your choice of question format. [2]
