CAMBRIDGE INTERNATIONAL MATHEMATICS

0607/53

Paper 5 (Core)

October/November 2016

MARK SCHEME

Maximum Mark: 24

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2016 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

This document consists of **3** printed pages.

Abbreviations

awrt	answers which round to
cao	correct answer only
dep	dependent
FT	follow through after error
isw	ignore subsequent working
oe	or equivalent
SC	Special Case
nfw	not from wrong working
soi	seen or implied

Question	Answer	Marks	Part Marks																			
1	(a)	<table><tr><td><i>PQBA</i></td><td><i>PQDC</i></td><td><i>PQRS</i></td></tr><tr><td><i>ABDC</i></td><td><i>ABRS</i></td><td></td></tr><tr><td><i>CDRS</i></td><td></td><td></td></tr></table>	<i>PQBA</i>	<i>PQDC</i>	<i>PQRS</i>	<i>ABDC</i>	<i>ABRS</i>		<i>CDRS</i>			2	B1 for each

Question	Answer	Marks	Part Marks
4 (a)	$[a=] \frac{3}{2}$ oe $[b=] 1$	3	B2 for either a or b correct If 0 scored SC2 for $\frac{n^2 + 3n + 2}{2}$ seen or M1 for one correct substitution of T and n C opportunity
(b)	Substitution of 7 in <i>their</i> formula	1	FT
(c)	20	2	M1 for $n^2 + 3n + 2 = 462$ or for sketch or for correct sequence to 15th term or further
5	496	1	FT from <i>their</i> formula in 4(a) C opportunity
Communication: Seen in one of the following questions		1	
1 (c)	Method of counting (implied addition), e.g. drawing or $5 + 4 + 3 + 2 + 1$ Or listing rectangles		
1 (d)	Differences shown		
1 (f)	Working shown, e.g. sequence continued – 45, 55, 66		
4 (a)	Working shown e.g. difference method or substitution to give two equations		
5	Working shown e.g. substitution
