General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Option 1: agree a 30 day trade credit with suppliers Option 2: increase its overdraft limit at its bank Indicative Content	Mark
2 (g)	AO2 = 3 marks AO3 = 3 marks AO4 = 3 marks. Arguments for option 1: <u>AO2</u> • <i>MBP</i> needs regular supplies of construction materials • <i>MBP</i> is operating in a market where there are many high value construction projects available <u>AO3</u> • Shorter trade credit terms provide a cheap source of short term finance to <i>MBP</i> to buy concrete tarmac and bricks • <i>MBP</i> may be able to take on the contracts if it can improve its short-term finances by using an overdraft to buy the materials to start the building work quickly <u>AO4</u> • However, <i>MBP</i> may not be able to make the earlier payment to suppliers as it may need this money to pay other costs such as wages • However, there is no guarantee that <i>MBP</i> will win the necessary number of contracts to receive sufficient payments to pay the charges on its overdraft Arguments for option 2: <u>AO2</u> • <i>MBP</i> is hoping to win contracts of high value • <i>MBP</i> may need to be overdrawn on a regular basis to meet the demands of government contracts	

	<u>A03</u> • A bank is able to provide a large overdraft to <i>MBP</i> which enables them to meet the high costs of the contracts such as buying new machinery • As payment for the projects is to be received monthly, <i>MBP</i> would be able to use the overdraft to finance the projects for that period and pay them off on receipt of payment thus reducing interest paid <u>A04</u> • However, <i>MBP</i> may require more short term finance in the form of an overdraft than the bank is prepared to offer and may insist that <i>MBP</i> take out a loan instead reducing <i>MBPs</i> ability to minimise its costs. • However, the bank may ask <i>MBP</i> to repay its overdraft at any time if it thinks that <i>MBP</i> is struggling financially thus putting <i>MP</i> at risk of bankruptcy	(9)

3 (a)	A01 =1 mark The only correct answer is D The minutes (1) A is not correct as a presentation is not a written record of a meeting B is not correct as an agenda sets out what is to be discussed at a meeting C is not correct as a telephone call is not a written record	(1)

Question Number	Which one the following is a reason why <i>Zomato</i> provides a receipt to its customers?	Mark
	Answer	
3 (b)	A02 = 1 mark The only correct answer is B - Customers can prove what meal they ordered if they need to complain (1) A is not correct as ingredients are not listed on a receipt C is not correct as the restaurants know the costs of the meals D is not correct as this information is not available on the receipt	(1)

Question Number	State one disadvantage to <i>Zomato</i> of not paying a dividend to its shareholders.	Mark
	Answer	
3 (c)	A02 = 1 mark <i>Zomato's</i> shares may drop in value possibly making it more difficult to raise capital to invest in attracting more restaurants to its website and app. (1) NB Do not accept a disadvantage that is not in the context of <i>Zomato</i> Accept any other appropriate response	(1)

Question Number	Answer	Mark
3 (d) (i)	A02 = 1 mark 362.98 (1)	(1)

Question Number	Answer	Mark
3 (d)(ii)	A02 = 1 mark 372.50 (1)	(1)

Question Number	Analyse two benefits for <i>Zomato</i> of having its own transport to deliver online orders to customers.	Mark
Indicative content		
3 (e)	A02 = 3 marks A03 = 3 marks <u>A02</u> • <i>Zomato</i> receives up to 8% commission to deliver online orders • <i>Zomato</i> wants to attract more restaurants to use its website <u>A03</u> • <i>Zomato</i> could use that commission to pay its own drivers to provide a quick and flexible service possibly resulting in more orders • It could build brand awareness by putting its logo on its own transport possibly reducing advertising costs	(6)

Question Number	Option 1: using the local Delhi radio Option 2: developing its website and app. Indicative content	Mark
3 (f)	AO2 = 3 AO3 = 3 AO4 = 3 Arguments for option 1: <u>AO2</u> - Local radio is a popular medium in Delhi with over sixteen million listeners - Radio advertising is one of the cheapest forms of advertising at 165 rupees per second <u>AO3</u> - Many of these listeners will be carrying out a large range of activities whilst listening to the radio and will keep listening to the adverts rather than switching to another channel so <i>Zomato</i> can reach a wide range of potential customers frequently <i>Zomato</i> could limit its financial risk by starting with a short cheap radio campaign targeted at the wealthy tourists in Delhi and assess how many visitors it attracts to taste the favourite dishes at its advertised restaurants <u>AO4</u> - However, radio does not allow a listener to see or taste the foods being advertised so may not be effective - However, the correct target audience for an expensive dining experience and the most appropriate radio station would have to be carefully selected and may be many fewer than sixteen million listeners	

	Arguments for option 2: <u>A02</u> • Websites and apps can be updated regularly • <i>Zomato</i> can target its app to Indian visitors to Delhi <u>A03</u> • <i>Zomato</i> can develop its website and app to allow interested visitors to read and write the latest reviews, view and upload recent photos of its latest dishes and share stories of their experiences which could attract more customers • Visitors may be attracted by the ease and speed by which they can order food, book a table and make payments when they place their orders <u>A04</u> • However, reviews and photos may sometimes be negative which may result in the marketing campaign being ineffective • However, the marketing campaign may not attract enough customers to justify the investment as many other restaurants are likely to be advertising their menus through websites and apps	(9)
