Morning (Time: 1 hour 30 minutes)						Paper Reference 4IT1/01							
Information and Communication Technology (ICT) Paper 1: Written Paper													
You do not need any other materials.											Total Marks		

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*

Information

- The total mark for this paper is 100.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

(b) Smartphones can be connected using wired or wireless methods.

(i) Give **two** advantages to Kiki of using a **wired** method to connect to the smartphone.

(2)

1

2

(ii) Give **two** advantages to Kiki of using a **wireless** method to connect to the smartphone.

(2)

1

2

(c) The smartphone uses a SIM card.

Which **one** of these is a type of connectivity that the SIM card provides?

(1)

- A** WLAN
- B** Bluetooth
- C** Infrared
- D** 4G

(d) Kiki meets her friend, Zara.

(i) Draw a diagram to show how Kiki's smartphone can be used to provide Zara's tablet computer with an Internet connection.

Label each component and the connectivity you use in your diagram.

(4)

(ii) Explain why sharing an Internet connection would affect the bandwidth available to Kiki's smartphone.

(2)

.....
.....
.....
.....

(e) Kiki's smartphone and Zara's tablet computer share a lot of the same functionality.

State the term used to describe this.

(f) The smartphone has a 4 GHz CPU.

Describe the function of a CPU.

(2)

.....
.....
.....
.....

(g) The smartphone uses application software.

Describe the purpose of application software.

(2)

.....
.....
.....
.....

(h) Explain **one** benefit of using solid state storage with a smartphone.

(2)

.....
.....
.....
.....

(i) Kiki's smartphone uses an open source operating system.

Which **one** of these describes the source code in an open source operating system?

(1)

- A** It is owned by a company
- B** It is made available to users
- C** It is more secure
- D** It uses less processing power

3 Ruwan uses a smartwatch when he exercises.

(a) The smartwatch can connect to a Bluetooth health monitor.

Which **one** of these describes Bluetooth?

(1)

- A A high speed wired connection
- B A high resolution connection
- C A type of wireless connection
- D An energy saving connection

(b) The health monitor uses Bluetooth to transfer data to the smartwatch.

(i) Explain why Bluetooth rather than infrared is used for this transfer.

(2)

.....

.....

.....

.....

(ii) Give **two** factors that might affect the speed of the transfer.

(2)

4 Ruwan searches online for local sporting events.

(a) Ruwan evaluates the fitness for purpose of the search results.

(i) Complete this table to show how each property can **negatively** affect the fitness for purpose of information.

(3)

Property	Negative effect
Bias	
Age	
Reliability	

(ii) Which **one** of these is another property of information that affects fitness for purpose?

(1)

- A Cost
- B Keyword
- C Plagiarism
- D Relevance

(iii) Which **one** of these would improve the ranking of a search result?

(1)

- A Acknowledged sources
- B Alphabetical search terms
- C Copyrighted material
- D Sponsored adverts
