

# Mark Scheme (Results)

Summer 2012

IGCSE Accounting (4AC0)  
Paper 01

## **Edexcel and BTEC Qualifications**

Edexcel and BTEC qualifications come from Pearson, the world's leading learning company. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information, please visit our website at [www.edexcel.com](http://www.edexcel.com).

Our website subject pages hold useful resources, support material and live feeds from our subject advisors giving you access to a portal of information. If you have any subject specific questions about this specification that require the help of a subject specialist, you may find our Ask The Expert email service helpful.

## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Answer	Mark
11(b)	A contra entry can arise when a customer is also a supplier of the business (1). Instead of the customer paying us for goods supplied (1) their balance is offset against the amount owing to them for goods or services supplied (1).	<b>(3)</b>

Question Number	Answer	Mark
11(c)	<p>Award one mark for each clear advantage identified</p> <p><b>Sample answers:</b>            Verifies the arithmetical accuracy of the sales ledger (1).            Assists in the prevention of fraud (1).            Provides management with total debtors (1)            Helps in the preparation of the balance sheet (1).            Detects errors in individual ledgers (1).</p>	<b>(2)</b>

Question Number	Answer	Mark
12(a)(i)	Assets (1) = Capital (1) + Liabilities (1) (must be correct direction)	<b>(3)</b>

Question Number	Answer	Mark														
12(a)(ii)	<table border="1"> <thead> <tr> <th>Assets</th> <th>Liabilities</th> </tr> </thead> <tbody> <tr> <td>Equipment 5 000</td> <td>Creditors <b>430</b> <b>(1cf)</b></td> </tr> <tr> <td>Motor vehicles 12 500</td> <td></td> </tr> <tr> <td>Stock of vehicles 45 000</td> <td><b>Capital 64880</b></td> </tr> <tr> <td>Stock of materials 2 250</td> <td></td> </tr> <tr> <td>Debtors 560</td> <td></td> </tr> <tr> <td><b>Total Assets = 65 310</b> <b>(1cf)</b></td> <td></td> </tr> </tbody> </table> <p><b>Assets 65310 = Capital (64880) + Liabilities (430)</b> <b>((1) for correct formula)</b></p>	Assets	Liabilities	Equipment 5 000	Creditors <b>430</b> <b>(1cf)</b>	Motor vehicles 12 500		Stock of vehicles 45 000	<b>Capital 64880</b>	Stock of materials 2 250		Debtors 560		<b>Total Assets = 65 310</b> <b>(1cf)</b>		<b>(3)</b>
Assets	Liabilities															
Equipment 5 000	Creditors <b>430</b> <b>(1cf)</b>															
Motor vehicles 12 500																
Stock of vehicles 45 000	<b>Capital 64880</b>															
Stock of materials 2 250																
Debtors 560																
<b>Total Assets = 65 310</b> <b>(1cf)</b>																

Question Number	Answer	Mark
12(a)(iii)	<p>The marks are awarded for identifying the effect on assets, and capital.</p> <p><b>Sample Answer</b></p> <p>The asset of debtors would be reduced by £100 (1) and capital would also be reduced by £100 (1) as the provision would reduce profit (1)</p>	<b>(3)</b>

Question Number	Answer	Mark
12(b)(i)	<p>The marks are awarded for a correct definition. Do not award any marks for examples.</p> <p><b>Sample Answer</b></p> <p><b>Capital expenditure</b> is monies spent on the purchase of or addition to a fixed asset (1) and are included on the balance sheet (1). They are purchased to generate profit for the business and not for resale (1). They will last longer than one year (1) (Max 3)</p> <p><b>Revenue expenditure</b> is monies spent on the day to day running of a business (1) and are included on the trading, and profit and loss account (1). The cost is written off against profit in the year incurred (1). They are used up within one year (1) (Max 3)</p>	<b>(6)</b>

Question Number	Answer	Mark
12(b)(ii)	<p>Revenue Revenue Revenue Neither Capital</p>	<b>(5)</b>

Question Number	Answer	Mark
12(c)	<p>Award one mark for stating that this would result in an incorrect set of final accounts and up to a further four marks for a good example.</p> <p><b>Sample Answer</b>            If a business does not treat capital and revenue expenditure correctly their final accounts will not be accurate and will not reflect a true and fair view (1) of the businesses profits or assets. For example if they were to include the cost of a new motor vehicle (capital expenditure) (1) as an item of expenditure in the profit and loss account (revenue expenditure) (1) their profits would be understated (1) and the valuation on the balance sheet would also be understated (1)</p>	(5)

Question Number	Answer	Mark
