Wednesday 14 May 2025

Afternoon (Time: 1 hour 30 minutes)	Paper reference	4EC1/01R
-------------------------------------	-----------------	----------

Economics

Level 1/2

PAPER 1: Microeconomics and Business Economics

You do not need any other materials.	Total Marks
--------------------------------------	-------------

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- Calculators may be used.
- You are advised to **show all your working out** with **your answer clearly identified** at the **end of your solution**.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Y:1/1/1/

Answer ALL questions. Write your answers in the spaces provided.

Some questions must be answered with a cross in a box ☒. If you change your mind about an answer, put a line through the box ☒ and then mark your new answer with a cross ☒.

- 1 (a) Which **one** of the following can represent a point on a production possibility curve (PPC)? (1)
- A** Where consumer goods should be produced
 - B** How the production of all goods can be increased
 - C** Total revenue from production
 - D** Production which is obtainable

On one day a month, a firm charges each customer a price of \$10 for providing one hour of gardening services. The cost to the firm for providing the service to each customer is \$15.

- (b) Which **one** of the following describes why the firm might do this? (1)
- A** Producers aim to maximise their profit
 - B** Producers may complete charitable work
 - C** Consumers have habits that are hard to give up
 - D** Consumers sometimes copy others' behaviour

- (c) What is meant by the term economies of scale? (2)

2 (a) Which **one** of the following products has a price elastic demand?

(1)

	Product	Price elasticity of demand (PED)
<input type="checkbox"/> A	W	-1.5
<input type="checkbox"/> B	X	-1
<input type="checkbox"/> C	Y	-0.5
<input type="checkbox"/> D	Z	0

(b) Which **one** of the following is the formula for calculating average cost?

(1)

- A Total cost \div quantity produced
- B Total fixed cost \div quantity produced
- C Total variable cost \div quantity produced
- D Total revenue \div quantity produced

3 (a) Which **one** of the following could cause a shift in the demand curve for a product?

(1)

- A Costs of production
- B Quantity of the product available
- C Price of substitute goods
- D Subsidies

(b) Which **one** of the following is an example of an external cost?

(1)

- A Litter
- B Rent
- C Indirect tax
- D Vaccinations

(c) On the blank pie chart below, draw and label the appropriate sizes of the primary (P), secondary (S) and tertiary (T) sectors for a developing country such as Nepal.

In 2021, the Indonesian Government spent 9.4% of its budget on healthcare. By 2027, healthcare spending will more than double on a per capita basis from \$114 to \$269.

This increase is due to an improvement in Indonesia's economic growth. The growth is partly because more people in other countries want to buy goods and services made in Indonesia.

(e) With reference to the data above and your knowledge of economics, assess the benefits to Indonesia of the government increasing its healthcare spending.
